Standing Order Regarding Use of Artificial Intelligence (AI) and Certification of Citations

All counsel and *pro se* parties must disclose the use of artificial intelligence (AI) in any capacity to prepare documents submitted to the Court. If AI was used in any way to prepare a filing or submission to the Court or chambers, counsel and/or *pro se* parties are **REQUIRED** to sign and file a Disclosure of Use of Artificial Intelligence at the end of said document, before the signature block, stating as follows:

"This document was generated with the assistance of [identify AI tool name]. I hereby certify under penalty of perjury that, despite relying on an AI tool, I have independently reviewed this document to confirm accuracy, legitimacy and use of good and applicable law, pursuant to O.C.G.A. §§ 9-11-1 *et seq* and O.C.G.A. § 9-15-14.

"I further certify that any exhibits cited in my pleadings exist in my possession at the time of said filing in a form that I am able to provide to the Court at any time during the pendency of this case."

Counsel and *pro se* parties are cautioned that mistake, time constraints and lack of technical expertise are not recognized by the Court as a good faith excuse for submission of documents that violate the Georgia Civil Practice Act or this disclosure rule. Accordingly, arguments in briefs to the Court which are supported by AI-generated case law (that is, cases that do not exist or are substantially dissimilar from their presentation to the Court) are not acceptable.

This Order is effective immediately and applies to all filings submitted after the date of this entry. Failure to comply with this rule may result in appropriate sanctions, up to and including dismissal and/or default judgment. Let it be SO ORDERED.

This 17 day of November, 2025.
